FEATURE CAR

1963 Buick Riviera

2 Door Hardtop

Owned by Tom and Barb Garibaldi

On a Saturday morning in 1963, my dad and I, were on our way to the Gamble's store in Antigo to pick up a vacuum cleaner my mother had ordered. We diverted our mission into Sharon motors the local Buick/Olds parking lot. It was mid September and my dad asked if I would like to look at the new cars. What kid would pass up a chance to do that. Mr. Kummer, the salesman, asked my dad if we would like to see the new arrivals in the back of the building. Of course we said yes. Walking through the service area, we walked out the back door, walked across the back lot into a large warehouse. Opening the door, Mr Kummers turned on the lights and there were about 15 cars covered in tarps. Don, the salesman, said "I have one car you have to see". Picking up the corner of the tarp he uncovered a black car which I did not recognize. My dad asked "what the hell is that". Don's response was, the Buick Riviera a new car for 1963. It was beautiful. From that point on I was in love. Since then I grew up and had a lot of cars, some nicer than others. But I have always thought about that Riviera. A few years ago, a good friend of mine showed up at the Lionel Club car show with a silver 1963 Buick Riviera. He had purchased it locally and looking at the car, I said, if you ever want to sell that car, give me first dibs. In October, last year, Bill the owner of the Buick, called me and said he was going to sell the Riv. We discussed the car, I did not give it a second, I said yes and the rest is history.

We had a great learning experience today with Todd Gillette of Gillette's Collision Center. He discussed how to repair a front suspension system, how to determine if a vehicle has been flooded and what to look for when buying a used car. His General Manager also explained how they process cars into their shop system for collision repair.
